

## Short BIOGRAPHY

### Bertrand Nadel, *Ph.D.*

**Lab head** “Genomic Instability and Human Hemopathy”

**Research Director DR1 INSERM**

**Centre d'Immunologie de Marseille-Luminy (CIML)**

Aix Marseille Université UM2, INSERM U1104, CNRS UMR7280,

Parc Scientifique de Luminy, Case 906

13288 Marseille, France

E mail: [nadel@ciml.univ-mrs.fr](mailto:nadel@ciml.univ-mrs.fr)

<http://www.ciml.univ-mrs.fr/science/lab-bertrand-nadel/home>

- 1989-1992: **Ph.D.** Pasteur Institute, Paris, France  
1992-1998: **Post-doctoral Fellow** The Scripps Research Institute, La Jolla, CA USA.  
1998-2003: **Group leader**, Dept. Internal Medicine I, Div. of Hematology, Univ of Vienna, Austria.  
2004-: **Lab head**, Center of Immunology of Marseille-Luminy (CIML), Marseille, France.

**B Nadel's** research focuses on the (epi)genetic mechanisms of oncogenesis in human lymphoma/leukemia, and aims to identify pertinent bio-markers and innovative therapeutic approaches. He has developed a translational research in strong partnership with clinics and Biopharmas.

B Nadel has been appointed in 2017 as director of the **CALYM Carnot Institute** on lymphoma <http://www.calym.org/>, a nation-wide consortium regrouping 18 French labs (researchers & clinician's experts on lymphoma), and the LYSA(RC) (lymphoma study association, coordinating clinical research and trials on lymphoma). CALYM **aims to foster innovation, research and development between academia and industry**; the CALYM consortium has gained international recognition for its ability to drive research towards clinical trials, in collaboration with Biopharma; MESR/ANR Audit (2016) established CALYM as a sustainable Carnot Institute <http://www.calym.org/CALYM-Labelise-Carnot-3.html>, and the label was renewed in 2020.

As **Director of the Cancéropôle PACA** <http://canceropole-paca.com/>, one of the 7 regional federative structures appointed by the French National Cancer Institute (INCa), B Nadel was in charge of coordinating forces, actions, and joint initiatives on cancer, through **federating a community of 12 research institutes, hospitals, Cancer research centers and local structures of excellence** (SIRIC, Marseille-Immunopôle, FHU, etc..) of the PACA French south-east region (230 teams and >650 researchers/clinicians); this includes launching calls, federating biobanks & platforms, organizing symposia, promoting joint research programs & **valorization with the industry and national/regional valorization agencies (SATT-SE, Inserm-Transfert, FIST)**.

Our lab is also a partner of the EPIC consortium (IARC, WHO) <http://epic.iarc.fr/>

B Nadel was a committee member of French research institutions (INSERM, HCERES, LNCC,..), and is scientific committee co-chair of the ASH and AACR Lymphoma biology meetings.
