CV Peter Borchmann

Peter Borchmann is Assistant Medical Director in the Department of Hematology and Oncology at the University Hospital of Cologne and head of the lymphoma program including the CAR T-cell therapy phase I/II unit. He is head of the certified center for hematological malignancies of the University Hospital of Cologne. As Co-Chairman of the German Hodgkin Study Group (GHSG) he is responsible for development of investigator initiated clinical studies. He is an active member of the German Society for Hematology and Oncology (DGHO), the European Hematology Association (EHA), and the American Society of Hematology (ASH).
